

WILL BE NO COAL STRIKE. OPERATORS HERE DECLARE THEY EXPECT NO SERIOUS TROUBLE.

They Are Firm in Their Determination Not to Recognize the Miners' Union, but Think That the Continuance of the Advance in Wages Will Avert a Strike.

The coal operators hereabouts are not worrying over the presence in town of John Mitchell, President of the United Mine Workers, and three of his colleagues. Representatives of the coal-carrying railroads who were seen yesterday said there was no fear whatever of a strike taking place in support of the strike situation.

Mr. Mitchell did not call upon J. Pierpont Morgan yesterday. It was stated that the negotiators had taken their own employees as individuals, and would not recognize the existence of the union.
